

Tork helps you reach your sustainability goals by making sustainability easier.

Focus4 sustainability product benefits

Materials & packaging  • Ecolabel certified refills – reduced environmental impact across the product life cycle • The USDA Certified Biobased Product label on most of the assortment is a certification mark of the U.S. Department of Agriculture • Meets EPA guidelines for post-consumer recycled fiber content. (1) • FSC® certified refills – made from responsibly sourced fiber.	Use & waste  • Reduce napkin waste by up to 49%. (2) • Certified compostable in commercial facilities by BPI (Biodegradable Products Institute) • One-at-a-time dispensing helps to control consumption and reduce waste.
Carbon  • Napkins with 20% less Carbon footprint (3) • Tork Xpressnap has an average cradle-to-grave carbon footprint of 8.8 g CO2e per use, with cradle-to-gate part 5.5 g CO2e per use. (4)	Hygiene for all  • Dispensers are certified Easy to use. (5) • Tork Easy Handling® ergonomic packaging for easier carrying, opening and disposal. • Certified by US Ergonomics.

The information includes sustainability benefits at a system level for [Tork Xpressnap® system (N4)], covering the Tork refill and dispenser range for the respective country. In cases where a specific benefit does not apply to all products in the assortment, this is clearly indicated.

1. US EPA Comprehensive Procurement Guidelines for Paper and Paper Products | US EPA. 2. Based on research comparing Tork Xpressnap Countertop system consumption vs Tork traditional dispenser napkin system (13TBS with D802A). 3. On average, compared to the average of all Tork Xpressnap® (N4) refill carbon footprint when commencing purchase of renewable electricity certificates (hydroelectric, solar, wind or mix), verified and matched through Renewable Energy Certificates (REC), for our paper making operations. The resulting carbon footprint reductions were quantified in a third party reviewed cradle-to-grave Life Cycle Assessment.. 4. Represents the Tork Xpressnap North American refill assortment per sheet. Based on third party reviewed life cycle assessments (LCA) covering all refill quality tiers. Because this data is a system average, it is not intended to be used in carbon reporting for specific articles and consumption.. 5. Certified by the Swedish Rheumatism Association..
