Mounting and Filling Instructions

Installation instruction sheet and mounting template are provided inside each carton.

Preventive Maintenance

The dispenser should be cleaned any time there is heavy paper dust build-up inside the dispenser. If paper dust is not a problem, approximately every year is a good frequency for cleanings. The following is the recommended procedure to cleaning:

- 1) Open the dispenser and remove the remaining towels.
- 2) Clean out any paper dust. This can be done in several ways, such as, vacuuming, blowing out with a can of compressed air (wear safety glasses), wiping out with a damp cloth, etc.
- 3) Clean the cover with a general all-purpose cleaner that is safe for plastics.

Troubleshooting

Problem: Any paper-related problem.

Take note of the date code on the outside of the case of paper product. Then contact the Essity Quality Coordinator and explain the problem.

Problem: Any other problem not stated above.

- Contact the Essity Quality Coordinator.
