The number one issue bothering your guests? Restrooms.

Our latest research² shows that dirty and overcrowded restrooms are the biggest problem at high-traffic venues – more than long lines to get in and traffic to and from the venue.

Guests simply don't want to be delayed in a restroom, let alone a dirty one, or miss out on the event.

Our latest innovation explained

Our new hand towels are compressed to fit twice as many in less space. The system is continuous: bundles latch onto each other when loaded and towels are connected so they dispense with no interruption.

The result is a new standard of smooth, continuous towel flow and a dispenser that stays slim yet has higher capacity than any other product on the market.

Bundles are compressed by 50% giving up to 2100 towels per dispenser*

Continuous bundles latch together as bundles are loaded

Bundles dispense without interruption one towel at a time
