

Think ahead.

We've made hand hygiene child's play.

Ella's Hand Washing Adventure app teaches your children to wash their hands properly

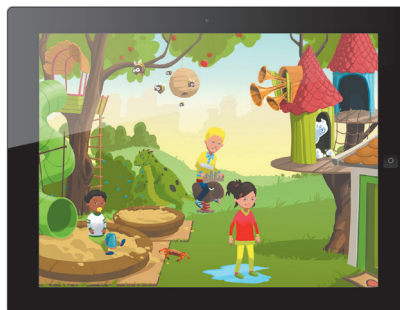

Wash your hands with Ella

Teach children why, when and how to wash their hands in a creative and fun way using our new tablet app - **“Ella’s Hand Washing Adventure”**.

Enjoy playing

Children choose between two environments, the playground or the kitchen, where they can play and get their hands dirty. After a while they will be instructed to go to the bathroom to wash their hands.

Now wash & wipe your hands

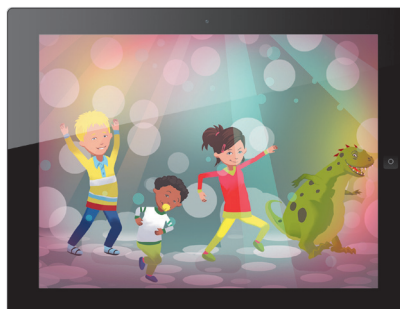

In the bathroom, children learn to wash, wipe and dry their hands properly. Using the tablets camera, they can even take a picture of themselves and be part of the action!

(Please note that the picture is not stored on the device or on the software).

Get the rewards

Once they have washed and dried their hands thoroughly they can join in the fun, disco dancing with Ella and her friends!

Downloading the app is easy

About the app

Hand washing is one of the most effective ways to prevent the spread of infections - especially in a pre-school environment where curious children use their hands to explore their surroundings.

Ella's app encourages children to wash their hands properly by introducing an interactive experience that mixes play with education to teach 2-6 year old children about **why, when** and **how to wash their hands**. The set up is intuitive, without written text, making it universally easy to use. The app is accredited by the Department of Communicable Disease Control (SMI), Sweden. **We aim to minimise infections and make life easier for both parents and teachers.**
