

Tork exelCLEAN® cloth range (W4/W7/W8)

Think ahead.

Tork is committed to developing innovative, sustainable hygiene solutions that are better for business, people and the planet.

Focus4 sustainability product benefits

-  4 Materials & packaging
-  4 Use & waste
-  1 Carbon
-  4 Hygiene for all

Materials & packaging

- FSC® certified refills – the wood-based fibre in the product has been responsibly sourced
- The Biobased Heavy-Duty Cleaning Cloth is made from 99% renewable fibres, certified by TUV Austria OK Biobased certification.
- Inner packaging is made from at least 30% post-consumer recycled plastic.
- Outer packaging is made from 100% recycled cardboard fibres.

Use & waste

- The cloths are suitable for repeated use, this helps to reduce consumption.
- Optimise consumption and minimise waste with the one-at-a-time dispensing feature.
- Cuts solvent consumption by up to 40%. (2)
- 20% less packaging waste. (1)

Carbon

- Since 2011, we have reduced the carbon footprint on our exelCLEAN assortment by 28%. (5)

Hygiene for all

- One-at-a-time improves hygiene, because the user touches only their own wiper.
- Reduces cleaning time up to 32% versus rags. (4)
- Refills are third-party verified for short-term food contact.
- Tork Easy Handling® ergonomic packaging for easier carrying, opening and disposal.

For Wiping

The information includes sustainability benefits on a system level for Tork exelCLEAN® cloth range (W4/W7/W8), covering Tork European refill & dispenser assortment. In cases where a specific benefit does not apply to all products in the assortment, this is clearly indicated.

2. When cleaning with wipers vs rags and rentals. Panel test conducted by Swerea Research Institute, Sweden, 2014. Rental cloths, cotton rags and mixed rags were compared to Tork Heavy-Duty Cleaning Cloths.. 1. Versus previous version; calculated per pound/kg/ton of product, 2021.. 4. Panel test conducted by Swerea Research Institute, Sweden, 2014. Rental cloths, cotton rags and mixed rags were compared to Tork Heavy-Duty Cleaning Cloths. 5. Based on life-cycle assessment done by Essity and third-party verified in April 2021. Emission reduction vs assortment in 2011..
