

## Protect patients and staff by staying on top of healthcare hygiene standards

Trusted hygiene solutions for hospitals

Tork is your trusted partner in maintaining infection prevention and hygiene compliance within your hospital. Tork solutions fulfill strict healthcare requirements and fit into the workflow of health professionals and cleaners. The design of Tork dispensers is functional and attractive, signaling to visitors and staff that hygiene is taken seriously. Overall, our innovative solutions can help you meet hygiene and cleaning standards all while meeting patient and staff expectations.

### Enhance your hygiene systems and outcomes

A clean and hygienic environment plays a vital role in providing quality healthcare and positive outcomes. You can depend on Tork hygiene solutions in the care environment.

- Tork PeakServe® hand towel dispensers help reduce time restocking dispensers and increase time for hospital staff to focus on maintaining a clean and safe environment
- Convenient placement of hand sanitizer encourages hand hygiene to reduce the spread of infections
- Smooth rounded edges on dispensers are easy to wipe down and clean
- Tork provides additional support with dispenser placement, tips, Tork VR hand hygiene training and hand hygiene signage

### Improve perceptions and the healthcare experience

Patient and visitor perceptions of care are influenced by many factors. Tork solutions help make hygiene a positive factor.

- Compact, whisper-quiet hand towel dispensers are perfect for use in patient rooms and quiet zones
- Increase accessibility with the silent and slim Tork PeakServe hand towel dispensers, featuring the lowest consistent pull force of any high-capacity hand wiping system
- Ensure public and patient care areas are clean and welcoming with functional and attractive Tork dispensers

### Enhance cleaning efficiency and staff productivity

A clean and hygienic environment is a priority in hospitals. Tork solutions help ensure cleaning time is productive and done where it's most needed.

- Tork EasyCube® connected dispensers provide real-time information to cleaners to help them act on what's needed and where — freeing up more time for hygiene-critical tasks with less time checking and refilling dispensers
- Tork PeakServe high-capacity dispensers shift more time to hygiene-critical tasks because they use 50% compressed towels that allow more towels on the cart and lead to fewer restocking trips
- All Tork dispensers are easy to stock, freeing up more time for cleaning
- Low-maintenance systems enhance staff efficiency
