

SECURE THE NEW NORMAL IN HYGIENE

Hand washing procedure

Wash and dry your hands thoroughly for at least 60 seconds with soap, water and paper towel

1 Wet hands and arms to remove dirt

2 Apply soap – be sure to dispense enough to cover both hands

3 Scrub hands and arms vigorously starting with palms

4 Rub the back of one hand against the palm of the other, then swap

5 Rub palms together with fingers interlaced

6 Rub tips of fingers against palm of the opposite hand

7 Wash each thumb by rotating inside the palm of the other hand

8 Rub the backs of fingers in small circular motions against palms

9 Remember to wash the wrists

10 Rinse hands and arms thoroughly with water for 30 seconds

11 Dry hands and arms with a single use paper towel

Hand washing is the single most important means of preventing the spread of infection*
