The Value of Data-Driven Cleaning

 <p>Use data to understand when and where there are needs</p>	 <p>Optimise your resources and spend time on what is most important</p>	 <p>Use built-in reporting tools to demonstrate a job well done and improve ways of working</p>	 <p>Save time and create efficiency on tasks like dispenser checks and avoid unnecessary cleaning</p>	 <p>Reduce product waste by using data to avoid early refilling</p>
---	--	---	--	---

<p>Dispensers are stocked</p> <p>99%</p> <p>of the time²</p>	<p>91%</p> <p>reduction in dispenser checks – saving hundreds of hours per year³</p>	<p>Up to</p> <p>20%</p> <p>cleaning time saved¹</p>
--	--	---

1. Based on the documented results achieved by three Tork Vision Cleaning customers, measured before and after the implementation of Tork Vision Cleaning.
 2. Measured across nearly 13,000 connected dispensers between June-December 2019, based on time per month that a dispenser is in an empty status against total time per month.
 3. Based on customer feedback for dispenser checks over 6 months before vs after installing Tork Vision Cleaning (between June-December 2019). Measured across 16 sites connected to Tork Vision Cleaning, with each dispenser check taking approx. 20 seconds.
 Note: Tork Vision Cleaning was formerly known as Tork EasyCube.

How it works

Harnessing real-time data about cleaning needs

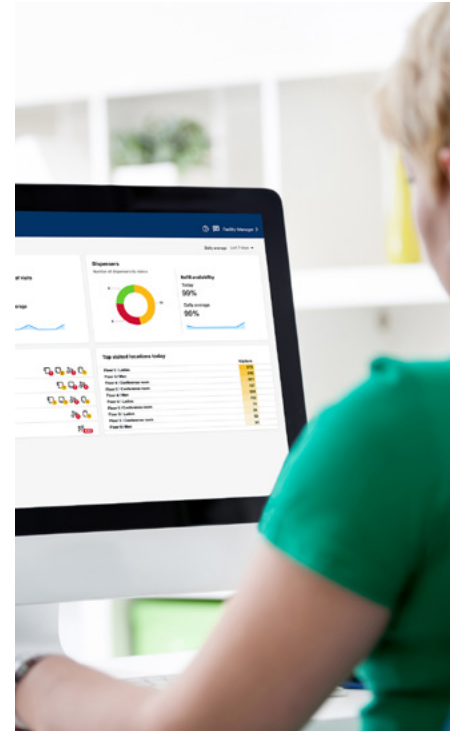

<p>People Counters</p> <p>Sensors measure visitor traffic and refill levels.</p>   	<p>Connected Tork Dispensers</p> <p>Choose from the largest assortment of smart dispensers available on the market.</p>  	<p>The Gateway to The Cloud</p> <p>A gateway collects the data and communicates with the cloud powered by Microsoft Azure, which ensures security, reliability and scalability.</p>  	<p>Tork Vision Cleaning</p> <p>Real-time information is easily accessed on your desktop, tablet or mobile phone for quick, data-based decisions.</p>
