94%

of customers surveyed
rate a clean and tidy
dining area as important¹

Be ready for service with Tork

Customer expectations of restaurants and cafés have increased exponentially and every diner is now a critic. We know how important the whole experience is to customers. There is much more to consider than the food and the service.

Take extra care of health and hygiene

- Improve hygiene to create a safe dining environment by having what you need, where you need it
- Prevent food borne illness in the kitchen with touch-free dispensers, single-use products and HACCP food-contact approved wipers
- Clean tables and touch points more efficiently with Tork cloths and wipers to make customers feel more comfortable and secure

Meet your sustainability targets

- Reduce waste with our packaging improvements and systems that are designed to use less
- Lower your climate impact with locally made products that are produced using renewable energy and geothermal steam
- Ensure your products are ethically sourced with our exploitation free commitment

Provide an exceptional dining experience

- Select napkins that suit your establishment and make your customers feel special
- Lift the image of your business with our design award winning dispensers
- Deliver a great experience with superior products that are easy to use
- Demonstrate your sustainable choices with the Better World program

Front of house

Make it clear to customers, from the moment they walk in the door, that you take hygiene seriously.

Back of house – hand hygiene

Hand hygiene is a simple and effective way to reduce the risk of cross-contamination in a kitchen. Ensure you have soap and hand towel easily accessible.

Tork Matic Hand Towel H1

- Place next to sink as reminder to dry hands, hand hygiene is critical to maintaining good health
- High capacity system reduces the risk of unhygienic run-out
- Improve hygiene with one-at-a-time dispensing while reducing consumption, costs and waste

FSC certified, EU Ecolabel

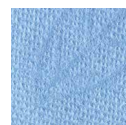

Hand hygiene of all staff is critical to reduce the risk of cross-contamination – ask about our training and posters
