Think ahead.

Tork® is the leading global brand in workplace hygiene, inspiring and supporting you to think ahead so you're always ready for business. From rethinking the ultimate guest experience, to reimagining cleaning efficiencies and rethinking ways to become more sustainable, Tork is always finding new and better ways to improve your business.

To get ahead of the competition, you need to think ahead – and Tork is the partner to help you do that.

Why Tork?

We understand your business

We look at hygiene from your point of view, to understand the specific demands of different sectors and businesses.

We improve efficiency

Our dispensers and refills are designed to work together for maximum performance to reduce usage, waste and servicing.

We deliver a better experience

Customers and staff appreciate it when you make an effort. Fully co-ordinated, design-award-winning Tork dispensers enhance your décor and impress visitors.

We're lowering our impact

Manufacturing in Kawerau using geothermal steam has reduced our greenhouse gas emissions. It also helps support our local community and reduces our impact and yours.

We offer products, services, and support for every workplace. What drives us is what drives you – taking care of your colleagues, your customers, and your bottom line. We're here so you can be ready for anything the day brings.

Washroom

Every business has different washroom requirements. We can help you find a hygienic, cost-effective combination of products for your specific needs and washroom capacity.

Healthcare

We can help you with hygiene and infection prevention where it really matters – in hospitals, nursing homes, or other medical care facilities.

Wiping & cleaning

Our wipes and cloths are designed to 'do the work', making wiping, cleaning and polishing more efficient.

Dining & tableware

Whether you run a full-service restaurant, quick-service restaurant or café, we make it easy to create the right experience for your guests.

Other benefits at a glance

Getting set for success starts with making quicker, more confident choices. Look out for products with these benefits.

Tork EasyCube®

The world's leading facility management software for data-driven cleaning. It empowers cleaning teams with new and smarter ways of working.

Design-award-winning

Tork dispensers have been awarded international design awards thanks to clean design and exceptional functionality.

Tork Easy Handling

Tork Easy Handling™ for easier carrying, opening and disposing of packaging. See page 8 for more.

FSC certified

Feel secure buying from the largest range of FSC® certified and third party ecolabel accredited products in the market.

Tropical Peatland free

Our Tropical Peatland free policy ensures lower carbon impact.

Allergy Friendly

Allergy Friendly certified by the European Centre for Allergy Research Foundation.

QuickDry™

Our strongest, most absorbent paper for more efficient drying with less waste.

Food safety

Many products are HACCP and ISEGA certified for use in the food industry. See page 40 for more.

Swedish Rheumatism Association

'Easy to use' certification is awarded to products that can easily be used by people with reduced hand strength.

See environmental certification list on pages 66-67.

Take action with Tork

Well-being

Improving workplace health and safety and hygiene standards for all people

Low impact

Reducing use, waste and greenhouse gas emissions

Circularity

Helping businesses go circular by closing the loop

Tork is committed to transparency in production and was the first tissue brand with EPDs in Australia and New Zealand. EPDs are independently verified and registered and contain transparent and comparable data about the environmental impact of a product through its life cycle.

The mark of responsible forestry

Third party certifications ensure our products live up to claims and provide reassurance for our customers. Tork has the largest number of third party certifications in the professional hygiene market, including Forest Stewardship Council (FSC), Blue Angel, Environmental Choice New Zealand (ECNZ), EU Ecolabel and Green Seal. See environmental certification list on pages 66-67.

Today, people are spending more and more of their lives in environments away from home – in workplaces, hotels, schools, restaurants and airports. As a result, our role in supporting a sustainable society has become increasingly important.

Well-being

Human rights

Our Responsible Sourcing Program was launched in 2014 and we have been working with Sedex to increasingly assess and onboard suppliers. In 2019 we launched our Ethical Sourcing Policy, which includes an exploitation-free commitment. 75% of Tork tissue products are locally manufactured in Australia or New Zealand – both are low-risk countries for modern slavery.

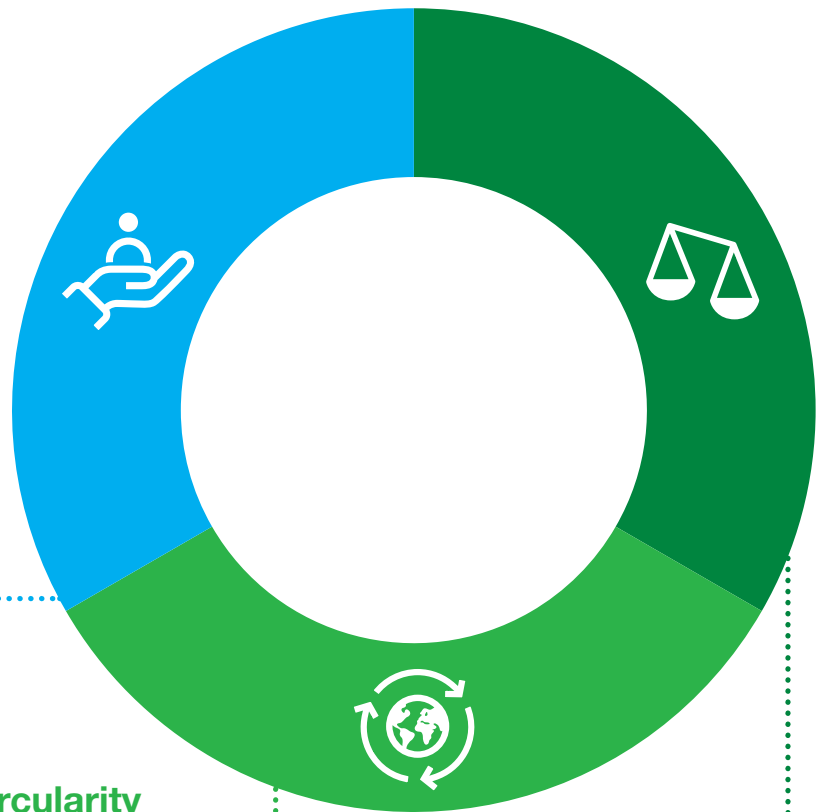

Education & support

Asaleo Care is committed to raising hygiene awareness and educating community groups in health, hygiene and continence. Currently reaching over 150,000 people per year.

Supporting local Iwi

We invest millions of dollars annually in geothermal steam in New Zealand through Ngati Tuwharetoa Geothermal Assets (NGTA). NGTA support the local Maori community, schools, clubs and businesses.

Circularity

Circularity

Tork are working globally to ensure a sustainable future through circularity. Through design, reduce, reuse and recycle, Tork are aiming for a zero waste future.

Product end of life solutions

Hand towels, napkins and paper wipers can be composted in on-site worm bins or through commercial composting facilities. Lifecycle analysis shows that commercial composting can reduce greenhouse gas emissions by up to 56%.¹

Renewable energy

Over 65% of Tork tissue products are manufactured in New Zealand using between 63-76% renewable energy throughout the entire life cycle reducing the depletion of natural resources.

Low impact

Use less

Tork products are designed to be as efficient as possible. Tork SmartOne® reduces toilet paper usage by up to 40% and Tork Xpressnap® reduces napkin usage by up to 25%.

Lighter footprint

Through switching to geothermal steam and changing our manufacturing process at our Kawerau plant, we have reduced manufacturing greenhouse gas emissions by 46%.

Less waste

Tork systems are designed to use less and reduce waste – some by up to 40%. Our latest local manufacturing investment is reducing packaging by 20% or 143 tonnes per year across a large range of products.

¹ Environmental Production Declaration (EPD) Tork Hand Towels S-P-00851 and Toilet Paper S-P-00852

Easy Handling

Good design goes beyond the look. Tork dispensers are designed to reduce waste and be easy to use. Tork refills are designed to be economical and are ergonomically packed for better value, time savings and improved working conditions.

Our Carry Packs™ and Easy Handling cartons are designed to make it easy to carry two at a time. Both are easy to open with perforated sections saving you time and money.

Easy to carry and open

- Carry handles and comfortable box grips make it easy to carry two packs at the same time for a balanced load
- Packaging perforations make opening quick and easy without a knife

Reduce waste

- Carry Packs reduce waste by up to 84%

Easier to dispose of

- Cartons collapse easily for recycling pick-up
- Carry Packs are made from 100% recyclable PE-LD plastic and are reusable as a bin liner

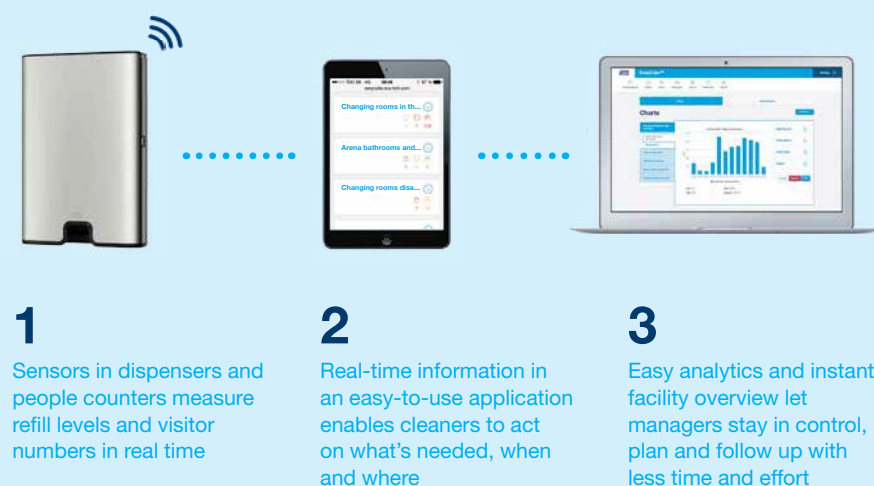

Tork EasyCube data-driven cleaning

Tork EasyCube is the world's leading facility management software for data-driven cleaning. It empowers cleaning teams with new and smarter ways of working.

Tork EasyCube delivers measurable results, improving efficiency and satisfaction for both cleaners and managers alike.

How Tork EasyCube works.

Take your team to maximum efficiency

Set a new standard of customer satisfaction

Boost your team's engagement

Washroom

Tork washroom dispensers

Exceptionally well-designed Tork washroom dispensers look better, work better and make a better impression on your washroom visitors.

Our design-award-winning dispensers combine form and function in black, white or stainless steel.

- Our comprehensive Tork Elevation and Tork Image Design™ ranges of hand towel, toilet paper and soap dispensers and matching accessories provide a consistent look for high profile washroom design
- Choose between manual and Intuition™ sensor-activated dispensers (hand towel roll and soap systems)
- Selected dispensers are Tork EasyCube enabled – look for the EasyCube symbol

reddot

Tork Elevation

Tork Elevation dispensers are sleek and seamless yet robust and durable in black or white.

Tork Image Design

Our premium Tork Image Design dispensers in brushed stainless steel with anti-fingerprint coating look stunning and stay clean.

Washroom selection guide

1

Select your washroom type

Choosing the right hygiene system for your washroom or wash station is easy. When assessing your needs, it is important to consider the type of washroom you are trying to create.

2

Select your capacity

Then consider the size and capacity of your washroom. This will help you to determine which dispensers are the best fit.

Washroom type

Low capacity – For smaller washrooms with fewer visitors and regular cleaning.

Wow factor

These washrooms are often architecturally designed using high quality fixtures that are complemented by contemporary dispensers.

Hygiene critical

Maintaining hygiene in washrooms and wash stations in healthcare and foodservice is vital. Reduce the risk of cross-contamination with touch-free systems.

Washroom plus

A washroom where people of all ages can take care of their personal needs such as applying make-up, cleaning a stain or changing a nappy.

Essentials

For everyday washrooms. Economical systems that are easy to use and maintain.

3

Choose your dispensers

Use the matrix below to find our recommended systems for your washroom type and capacity.

Medium capacity – Medium to large washrooms with more visitors and longer maintenance cycles.

High capacity – For larger, busy washrooms with a high volume of visitors.

4

Choose your refills

Now you've selected your dispensers, select your refills. Refills are available in a range of qualities.

Premium

Premium is our top quality tier, with exceptional softness and quick absorption. Two layers of tissue provide a superior look and feel.

Advanced

Our Advanced range effectively balances cost and performance. Products are soft, attractive and reliable.

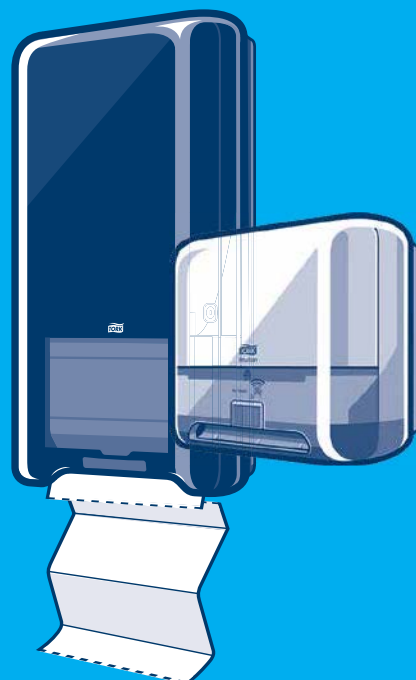

Universal

Our Universal range meets the basic needs in a washroom offering good value for money and low maintenance.

Tork Hand Towel

We offer a complete range of hand towel dispensers and refills: from functional options for basic washrooms, to high-capacity systems for demanding environments; to higher end solutions for designer and executive washrooms.

New Tork PeakServe®

- Services up to 820 people between refills² to keep crowds moving
- Cut refill time in half
- 50% less storage space

SmartCore – The most convenient way to extract a core – no need for tearing and easier to remove, SmartCore gives more sheets on the roll and less air in the packaging optimising transport efficiency.

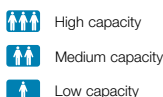

- Reduce consumption with sheet by sheet dispensing
- Improve hygiene as user only touches the sheet they take from the fully enclosed dispenser
- Achieve highest capacity by installing two T8 dispensers and reduce servicing

Capacity

Washroom type

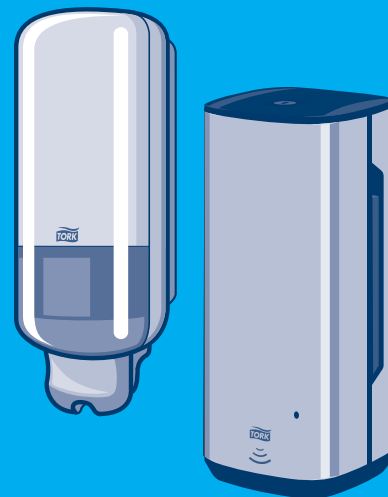

Tork EasyCube® enabled dispensers offer a data-driven cleaning management solution that provides real-time traffic and refill status

⁵ When compared to a standard jumbo toilet roll according to internal European research with 7,729 users. Traditional maxi jumbo dispensers (380m roll) vs Tork SmartOne Twin Mini dispenser. Tork SmartOne Mini lasts 37% longer than the maxi jumbo roll (380m).

Tork Soap & Sanitisers

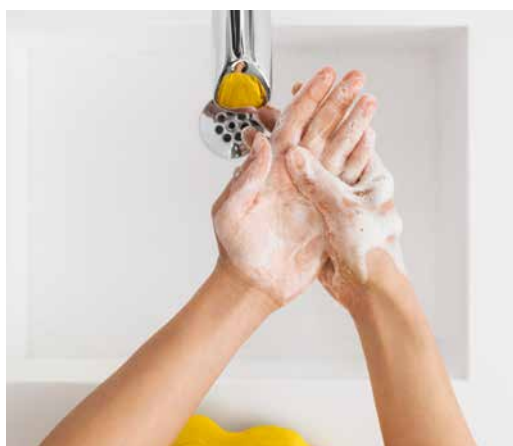

Our full Tork Skincare offer will help get your washrooms ready to create positive and lasting impressions. Design-award-winning dispensers and smart refill solutions look good and provide the best in hand hygiene.

Tork Foam Soap provides economical hand washing

- Quick and hassle-free refilling with sealed cartridges
- Foam soap lathers quickly and rinses off easily

Up to
150%
more washes
than liquid soap

Tork Soap & Sanitisers

Your needs determine the best solution with a choice of liquid or foam soap or leave on sanitiser with soft push, arm lever or sensor-driven dispensers. With Tork, hygiene is in your hands.

	 Foam Easy and comfortable to use, spreads well over the hands	 Liquid Gives a large dose of cleaning ingredients	 Leave on Sanitisers Effective sanitisers that meet the most stringent norms & regulations
Skincare products for Washrooms	Mild Extra Mild Luxury Soft	Mild Hand Washing	General Public For use in offices, lobbies and canteens
Skincare products for Special needs	Antimicrobial	Hair & Body Oil & Grease	

Allergy Friendly

Allergy Friendly certified by the European Centre for Allergy Research Foundation.

ProDerm Dermatologically Approved products have been put through stringent dermatological clinical testing by leading international research organisation.

Easy to use

Swedish Rheumatism Association 'Easy to use' certification is awarded to products that can easily be used by people with reduced hand strength.

Other certifications

Certified by HACCP Australia means product is food safe and compatible with HACCP based food safety programmes.

The Ministry for Primary Industries (MPI) is a New Zealand government department that approves products appropriate for use with processing all animal products other than dairy.

Tork Alcohol Hand Sanitisers for frequent use

Tork Alcohol Gel and Foam Hand Sanitisers, comply with the most stringent EU efficacy norms.

Microbiological tests			
Effective against	Test method	Contact time	Test organisms
Bacteria	EN 1499 Hygienic hand wash	1 min	E. coli K12
	EN 1500 Hygienic hand rub	30 sec	E. coli K12
	EN 1276 Bactericidal Activity for food, industrial, domestic and institutional areas	15 sec	S. aureus, E. coli, P. aeruginosa, E. hirae, MRSA, VRE
	EN 1040 Basic Bactericidal Activity	15 sec	S. aureus, P. aeruginosa
Yeast & Fungi	EN 13624 Fungicidal activity for instruments used in the medical area	30 sec 1 min	C. albicans (30 sec) and A. niger (1 min)
	EN 1650 Fungicidal Activity for food, industrial, domestic and institutional areas	30 sec 2 min	C. albicans (30 sec) and A. niger (2 min)
	EN 1275 Basic fungicidal or basic yeastcidal activity	30 sec 2 min	C. albicans (30 sec) and A. niger (2 min)

European Norms (EN) is a standard that has been adopted by one of the three recognised European Standardization Organizations (ESOs) – CEN, CENELEC or ETSI.

- Larger dose of liquid soap gets hands really clean
- Sealed system with collapsible bottle improves hygiene and reduces waste
- Quick 3 second cartridge changeover reduces maintenance time

Wiping & cleaning

Making your working day easier is our focus.
Our wiping and cleaning range has been designed
with simplicity, efficiency and economy in mind.

3 steps to the right wiping and cleaning products for your business

1

Identify the task

Your task determines what product you need – whether that's for wiping, cleaning or polishing.

2

Find the right product

- What size wiper or cloth does your task require?
- Do you need single or multi-use wiping?
- Do you have specific needs such as heat-resistance or solvent release properties?

3

Select the right dispenser

- Mobile, wall mounted or portable dispensing?
- Do you need single-hand dispensing?
- Do you need flexible mounting using magnets or suction cups?

Wiping

Wiping is mopping up spills, soaking up liquids and picking up dirt and dust with paper.

Cleaning

Cleaning is removing dirt and stains with non-woven cloths that are dry or used together with water, solvents or detergents.

Polishing

Polishing is creating a protected surface with polish applied and rubbed by a non-woven cloth to a shiny finish.

Technology

Tork paper products with QuickDry are stronger when wet and more absorbent than ordinary paper.

Tork Cleaning Cloths are produced using our patented exelCLEAN® endless fibre technology, which increases the strength of the cloth, improves high-performance durability and cleaning performance.

Product certification

ISEGA conduct independent testing and certification of material intended to come into contact with foodstuffs.

Certified by HACCP Australia means product is food safe and compatible with HACCP based food safety programmes. HACCP (Hazard Analysis and Critical Control Points) is an internationally recognised risk management system.

HACCP Certified FZP (Food Zone Primary) wipers and cloths are suitable to use in the food zone and are safe for direct contact with food.

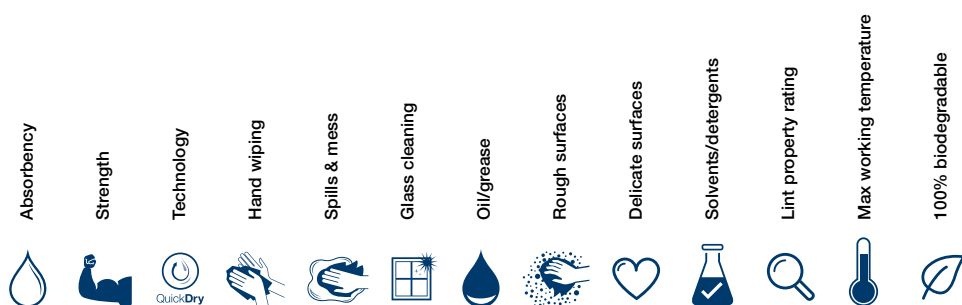

BCI – The Better Cotton Standard System is a holistic approach to sustainable cotton production which covers environmental, social and economic pillars.

Aviation certified AMS 3819C or BMS 15-5G includes physical and chemical testing for use in aviation.

Tabletop

Helping you to choose the right Tabletop product

It's not enough just to provide satisfactory service – you need to create a great experience to keep reviews positive and customers coming through the door.

When doing this, we know the details matter, and we can help you get them right. No matter the needs of your establishment, we've got something for you.

What works best for your business?

Find the right product for your restaurant based on your service style:

Self-service

If customers serve themselves in your restaurant, things need to happen fast and napkins need to always be at hand, especially during peak times. Refilling, waste management and storage need to be effortless, easy, and convenient.

Full-service

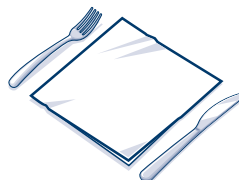

In a restaurant with table service, it is the total experience that keeps customers coming back. The design, colour, and quality feel of the table setting is one of many important things that creates a restaurant's ambiance.

What we offer

Tork Xpressnap napkin dispensing system

- Reduces napkin usage by up to 25% guaranteed⁸
- Improves hygiene with fully enclosed napkins, customers only touch what they use

Tork napkins and tableware

- A wide variety of napkins and tableware to meet your needs
- Tork LinStyle® for premium textile feel and softness
- Tork Embossed for thick absorbent tissue quality

⁸ Compared to traditional napkin dispensers

Tork Xpressnap Napkin systems

Designed for busy self-service environments where napkins need to be available close at hand. One-at-a-time dispensing helps you control consumption and costs.

- A wide range of stylish, modern dispensers to fit your needs
- Improved hygiene, as your guests only touch what they take
- Promote your brand, offer or generate extra revenue with the AD-a-Glance display panels

Reduce napkin usage by up to
