How efficient is your napkin solution?

Orders coming in, food going out. Hungry and impatient guests waiting. A busy day in a restaurant is a good day. But it demands efficiency, with everything running smoothly, for you to be able to deliver the great experience your guests expect. And as every restaurant manager knows, it's about doing more with less, as time, space and staff are always in short supply.

Yet, many restaurants continue to use the same old napkin solution that they've always used, without ever reflecting on the negative impact it has on operations: time-consuming refilling, unnecessary napkin consumption, messy napkin leftovers and unhygienic dispensers spoiling the guest experience.

Tork Xpressnap Fit® is our latest innovation – a napkin system designed to save you time and space. It's compact enough to fit in even the most crowded environments, requires fewer refills, and gives you less waste to deal with. Tork Xpressnap Fit leaves you free to focus on what really matters: your guests.

It's a Perfect Fit for Busy Days.
