

Think ahead.

Secure the new normal in surface cleaning and disinfecting

These guidelines provide clear direction on which Tork wipers and cloths are best for surface cleaning and disinfecting. Remember, contaminants can stay on surfaces and continue to be a threat for days if not removed properly.

Always wear gloves

- Always wear gloves for cleaning procedures. Gloves should be discarded after each cleaning. If using re-usable gloves, they should be dedicated for cleaning and disinfecting surfaces of certain zones in the working area
- Wash hands immediately after gloves are removed
- Dry your hands thoroughly with a single-use paper towel to prevent spread of microorganisms

Clean surfaces

Cleaning is physically removing germs (bacteria and viruses), dirt and grime from surfaces using detergent and water

- Dirty surfaces must be cleaned first with detergent or soap using a disposable wiper prior to disinfection
- Any surface that is visibly dirty or has a spill should be cleaned, regardless of when it was last cleaned

Disinfect surfaces

Disinfecting is the use of chemicals to kill germs (bacteria and viruses) on surfaces

- Use an approved disinfectant and disposable cloth
- If using an alcohol based product, use one with a minimum of 70% alcohol
- Always follow the manufacturer's instructions for concentration, application method, contact time, etc.
- Check product's expiration date. Expired chemicals may not disinfect effectively

Routine cleaning & disinfecting

High-touch surfaces need to be cleaned and disinfected regularly

- Tables
- Doorknobs
- Light switches
- Handles
- Desks
- Elevator buttons
- Toilets
- Taps
- Sinks
- Machine controls
- Equipment panels

Clean first then disinfect

One & done

One surface per single side of a wiper or cloth when cleaning or disinfecting. Once done, dispose of in garbage bag

Wipers for surface cleaning

Tork single use, disposable paper wipers can be used to effectively remove bacteria and viruses, dirt and grime from surfaces.

Tork Reflex Wiping Paper

- Improved hygiene as hands only touch the paper to be used
- One-hand dispensing with the M4 rotating nozzle provides access to paper from any angle
- Single-sheet dispensing reduces consumption by 37% compared to standard free-flowing systems

Tork Basic Paper

- Low cost light wiping paper
- Improved hygiene as hands only touch the paper to be used

Tork Surface Cleaning Wet Wipes

- Portable for effective surface cleaning, wherever you are
- Ready-to-use as pre-loaded with pre-soaked disposable wipes
- Professional quality and tough on dirt, grease and grime

Cloths for surface disinfection

These Tork cloths can be used with strong disinfectants and detergents without falling apart. They have a unique ability to hold (soak up) chemicals then release them onto surfaces effectively and can be used multiple times, then thrown away.

Tork Cleaning Cloths (510)

- Soft and flexible to clean into corners and confined spaces
- Can be used in normal bucket with disinfectant or detergents

Tork Heavy-Duty Cleaning Cloths (530)

- Excellent absorbency and strength when wet
- Can be used in normal bucket with disinfectant or detergents

Tork Long-Lasting Cleaning Cloths

- Highly absorbent and very durable, perfect for repeated use without tearing
- Can be used in normal bucket with disinfectant or detergents
