Tork carbon neutral dispensers

As of May 2023, we offer 27 existing Tork dispensers in Europe (excluding France) with carbon neutral¹ certification. The carbon emissions for these dispensers are reduced and compensated across the entire life cycle² – from raw materials to end of life.

Meaningful carbon compensation

For the compensation, Tork works with ClimatePartner, a member of the International Carbon & Offset Alliance. Carbon emissions are compensated with certified and regularly monitored projects. From supplying clean drinking water in Cambodia to protecting forests in Indonesia. And investing in energy-saving cookstoves in India combined with recovering plastic³ along beaches.

Take a more sustainable grip on paper hand towels

As the global leading professional hygiene brand with 50 years in the business, we are seeing a shift in the market. The traditional, familiar C-fold paper hand towel has been a favorite in public spaces. However, hand towels have evolved over time. Comparing to modern alternatives that dispense smaller hand towels one sheet at a time, the C-fold format users tend to end up getting more paper than they need, thus creating excess waste. Switching from Tork C-fold to Tork Xpress® Multifold will help reduce waste by 15%¹. The H2 Multifold system offers one-sheet-at-a-time, just the right amount as needed and leaves the next user with a clean and pristine hand towel. The Tork Xpress® Multifold hand towels carry the EU Ecolabel, the FSC® certification, are approved for short term food contact and are compatible with Tork PaperCircle® recycling service. Move into the new era conveniently and easily by switching from traditional C-fold hand towels to modern paper hand towels. You can order adapters for existing C-fold dispensers free of charge or make the switch to Tork Xpress® Multifold dispensers.

Tork Microfibrés

Microfibrés are very fine so that they have a lot of surface area, which increases the absorbency. Gaps between split fibres in our microfibre cloths create pockets, which easily pick up dirt and dust and are also fine enough to pick up microbes. When woven together into a textile cloth, microfibrés create a cloth with excellent and efficient cleaning properties.

Tork offers reusable and disposable microfibre solutions that are low-lint and wipe away micro-organism from surfaces.

Making it easy to create a great experience

It's not enough just to provide satisfactory service – you need to create a great experience to keep reviews positive and customers coming through the door. When doing this, we know the details matter, and we can help you get them right.

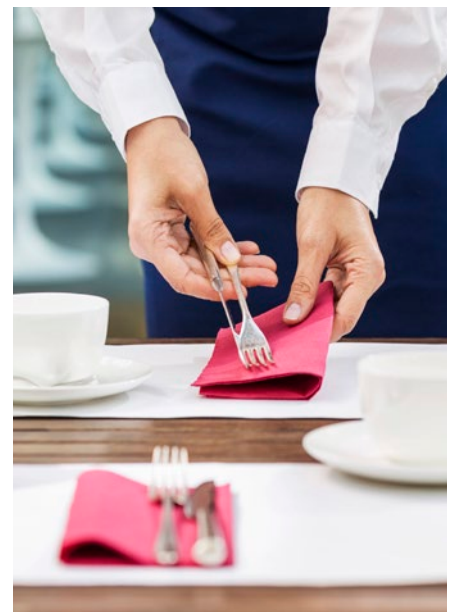

Product ranges to meet different needs

Self-service with napkin dispensing systems

When customers dispense their own napkins, refilling, waste management and storage need to be effortless, easy and convenient.

Full-service with single-serve napkins and tableware

The quality feel of your table setting is one of many important things that creates a restaurant's ambiance.

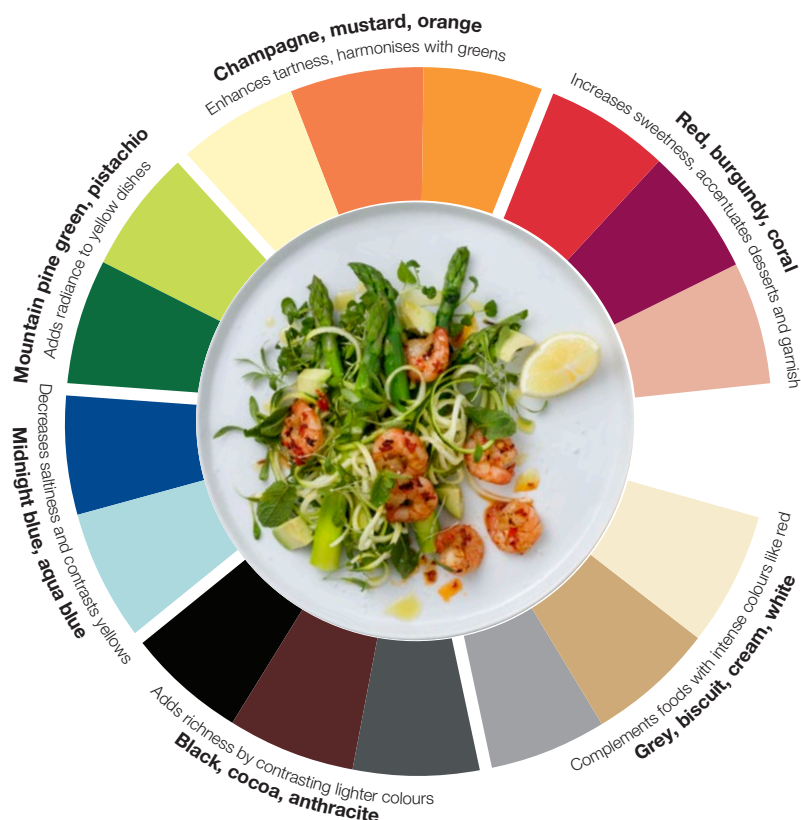

Match your dish with the perfect color

Did you know that colors can have an important impact not only on how guests perceive a restaurant, but also on how they experience the taste and aroma of a dish? Pairing your food with the right color is a great opportunity to bring every course to life, ultimately improving the entire guest experience.

To help our customers create unique dining experiences, we teamed up with food stylist and chef Linda Lundgren, whose clients range from high-end restaurants to the international food industry and gastronomic magazines.

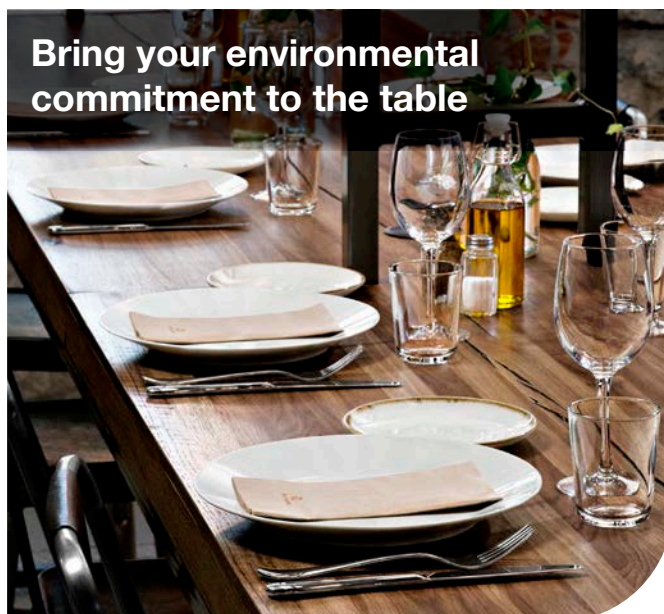

Use our color wheel, based on our Tork LinStyle® napkin range for inspiration on how to use colors to enhance flavours and fulfil the potential of every plate you create.

The natural choice

Tork Natural Napkins are developed with sustainability in mind. They are made from 100% recycled, unbleached and undyed material. Plus they are FSC® and EU Ecolabel certified, but also biodegradable and industrially compostable according to EN 13432. Tork offers natural napkins for self-service restaurants and for full-service restaurants.
