

Think ahead.

Tork Biobased Heavy-Duty Cleaning Cloth

Sustainability goes hand-in-hand with productivity

Lower your environmental impact with Tork biobased products

As a manufacturer, you might have conflicting operational goals. How do you increase productivity while reducing the environmental impact of your business?

Tork® has the solution you've been looking for.

Our Tork Biobased Heavy-Duty Cleaning Cloths are 99% plant-based so you won't have to compromise on sustainability to get the quality hygiene or performance products your business needs. These cleaning cloths provide durability, absorption, and performance as the conventional version with better-for-the-planet materials.

Tork is the ideal partner to help strengthen your business through efficiency and sustainability.

Tork Biobased Heavy Duty Cleaning Cloth was awarded at InterClean in the category Sustainability and Environment and as an overall tradeshow winner.

Tork Heavy-Duty Cleaning Cloths are made with

99%
plant-based fibers*

*Product is USDA Certified Biobased

USDA® BioPreferred Certification for proven sustainability

The USDA® BioPreferred certification serves as an independent guarantee of the renewability of raw materials.¹ When you see the Tork name with the USDA® BioPreferred logo, you'll know the products will serve your business needs—and the planet—well. New product helps to continuously improve cleaning processes, while achieving sustainability goals.
