Closing the loop with the world's first recycling service for paper hand towels

Tork PaperCircle is a complete solution to reduce your waste, **showing your dedication to sustainability** to your employees and visitors.

How Tork PaperCircle works

Our dedicated team supports you throughout setup, implementation and ongoing use to ensure your transition to a circular economy is smooth and efficient.

Your visitors and employees use the washrooms as usual, but throw their paper hand towel in a separate bin after drying their hands.

Cleaners empty the bins as usual but keep the hand towels separate on the trolley.

Our recycling partner collects the paper hand towels and brings them to the local Essity mill.

The Essity mill recycles the paper hand towels into new tissue products.

Your used paper hand towels are put back into the loop as new tissue products.

Microfibers

Microfibers are very fine so that they have a lot of surface area, which increases the absorbency. Gaps between split fibers in our Microfiber cloths create pockets, which easily pick up dirt and dust and are also fine enough to pick up microbes. When woven together into a textile cloth, microfibers create a cloth with excellent and efficient cleaning properties.
